

# WEEKLY FLU REPORT

Epidemiology Program—Influenza-Like Illness (ILI) Surveillance

2016 CDC Week 17

## This report includes...

- ⇒ This report includes information on influenza-like illness (ILI) activity in Harris County as well as on the state and national level.
- ⇒ Absenteeism data are voluntarily reported from school nurses located at area public schools.

## Important Notes:

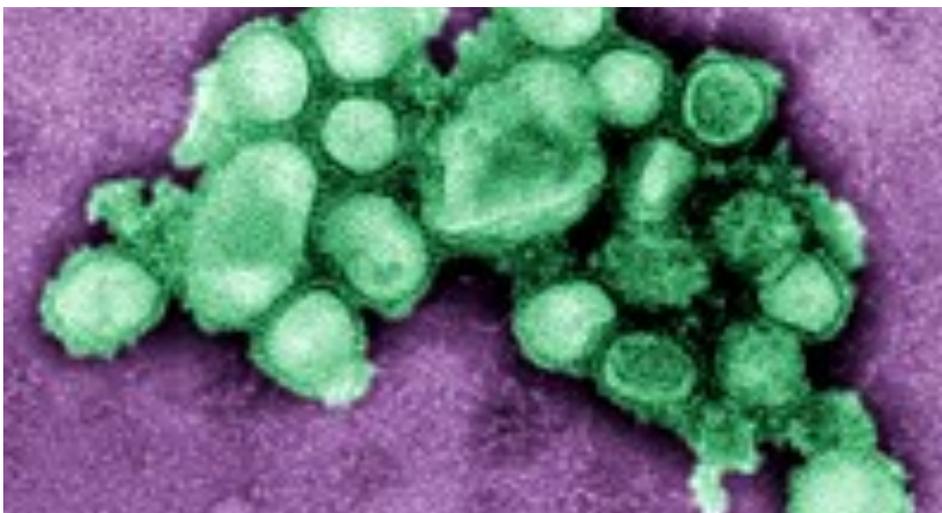

- ⇒ Influenza-like illness (ILI) is defined as an illness including a fever (temperature of at least 100 °F) with a cough OR a sore throat, without another known cause (such as strep throat).
- ⇒ Influenza/ILI is reported on a voluntary basis and is not a mandatory notifiable condition.
- ⇒ Similarly, rapid influenza test results are also reported on a voluntary basis.
- ⇒ Therefore, data presented in this report indicate trends and should not be interpreted as a complete and total picture of influenza activity in Harris County.
- ⇒ The 2015-2016 influenza season is from October 4, 2015—May 21, 2016.

## In This Issue

- National and State Influenza Activity
- Harris County School Absenteeism
- Texas Influenza Lab Testing Summary

**Influenza-Like Illness (ILI) Activity Level Indicator Determined by Data Reported to ILINet**  
**2015-16 Influenza Season Week 17 ending Apr 30, 2016**

# Nationally

Influenza activity is considered to be at minimal levels with local spread in the state of Texas for CDC Week 17 (April 24, 2016—April 30, 2016).

**Weekly Influenza Activity Estimates Reported by State & Territorial Epidemiologists\***  
 Week ending April 30, 2016 - Week 17

## School Reporting

Influenza/ILI reporting is voluntary as it is not a mandatory notifiable condition. Therefore, this report indicates trends and should not be interpreted as a complete and total picture of influenza activity in Harris County.

Daily absenteeism and student/staff ILI numbers are reported from schools in the 18 Harris County Independent School Districts (ISDs). Schools were asked to begin reporting ILI from the beginning of the school year; however, reporting participation generally increases as occurrence of ILI increases.

The 2012-2013, 2013-2014, and 2015-2016 influenza seasons did not have a week 53; the week 53 data point for those seasons is an average of weeks 52 and 1.

School holidays:

- \* Week 47/48 (Thanksgiving)
- \* Week 52-Week 1 (Winter Break)
- \* Week 10/11 (Spring Break)
