

Vaccinate Before You Graduate

**Graduating from High School this year?
Take charge of your health: Get vaccinated!**

As of January 1, 2012, all entering college and university students in Texas are required to show proof of an initial meningococcal vaccination or a booster dose during the five-year period before enrolling.

Bacterial meningitis is a dangerous and deadly disease and college students are at a heightened risk of contracting this disease. Don't wait, vaccinate!

HCPH Health Clinics
