

Michael Ha, MBA

Michael Ha joined Harris County Public Health (HCPH) as the Division Director of Disease Control and Clinical Prevention (DCCP) in 2019. His responsibilities include overseeing a diverse spectrum of clinical and administrative programs, and providing the strategic vision for the Division.

Michael joined HCPH with over 12 years of health-care experience, including over a decade of management experience. He was a licensed pharmacist and pharmacy manager for many years before moving to Harris County and focusing on health-care management and administration. Recently, Michael was a Pharmacy Operations Manager at a federally-regulated compounding pharmacy and Healthcare Operations Manager at DaVita Kidney Care, where he managed multiple outpatient dialysis clinics.

Michael received his Bachelor of Science in Pharmacy from the University of Alberta, Canada, and his Master of Business Administration from the University of Houston.
