CONCESSION STANDS

& COVID-19

Fresh popcorn, cotton candy and soft drinks are “must-haves” at many school functions. For events with open concession stands, the following safety guidelines are recommended:

- Before each event, staff, contractors, and volunteers involved with food service must follow the COVID-19 screening protocols, wear face masks and follow proper food-handling procedures.
- Foodservice areas should only provide individually wrapped or packaged condiments or plastic ware.
- Foodservice counters and eating areas should be cleaned and disinfected after each use.
- Limit contact between the individuals involved in foodservice and patrons as much as possible.
